

Lembongan Surf Spot

Lembongan is an idyllic little island with some great breaks suitable for all levels of surfers, including a good clean right-hander that really pumps even when many other breaks are flat. Besides great waves, Lembongan is also a top getaway from Bali with long white sand beaches and excellent snorkeling, diving and fishing. With accommodation ranging from budget to 4-star, it is perfect for just about anyone including families and couples.

Visible from Sanur Beach in Bali, Lembongan has quite a few really happening breaks the most famous of which are called Playgrounds, Shipwreck and Lacerations. Lembongan is an idyllic little island with some great breaks suitable for all levels of surfers, including a good clean right-hander that really pumps even when many other breaks are flat. With accommodation ranging from budget to 4-star, it is perfect for just about anyone including families and couples.

Surf Breaks

Shipwreck: Is a fun and safer bet hot-dogging right that gives you a great barrel section to boot. It doesn't perform well over six feet and so is best ridden during medium (four to five foot) swells. workable right that breaks on the mid to high tide, on low tide it goes flat, suddenly grows with incoming tide to be very awesome. Short, intense ride, fairly safe, although can be shallow on the far inside. Easy tube, and right-hander makes it popular. Be careful of the unpredictable rips and currents.

Razors - a rarely make able, left barrel, that on it's day, is a long full suck turbo tube. **Laceration:** Is a high speed, hollow right barrel. A thick and bowling right-hander that has earned its ominous name in deference to the shallow reef which lurks below its antics. The Lacerations break, definitely the best wave off Lembongan, presents its finest gifts from mid to high tide.

Playground: Is a soft break at the far south end next to a headland cliff that provides a wave when the swell is small and the tide is low. A long and fun left there is complemented by a hollow right off the other side. The Playgrounds left peels in a style reminiscent of Kuta Reef. The down-reef right peak meanwhile is shifty but will now and then dispense barrels. High tide allows right to break through about 80 meters. As tide drops, right sections and left starts to barrel. If you're not quite up to the hidings the other spots on Nusa Lembongan can dish out, check out this spot.

Overview Atmosphere Pretty freaky sitting in the lineup with huge catamarans and pontoons only 100 meters away. Great atmosphere.

Ceningan's - a rarely surfed left off the temple on Nusa Ceningan that is surfed when the swell is small and winds light.
