G-Land Bobby's Resort is the first camp in G-Land. Located in a large jungle preserve on the south east tip of Java, you are treated to a picturesque setting that offers an unforgettable exhilarating adventure experience. A tower above the beach provides a commanding view of the surf. The restaurant serves three generous meals a day, from an extensive menu, and the bar has Carlsberg on tap. You can play pool or ping pong, and after dinner watch a movie. There is both each hut equipped with a water cooler and a fan. G-Land Bobby's Resort has the highest quality service, accommodations, and great food. The surrounding area has an abundance of exotic wild life, natural settings, and world class surf. Our tour packages start in Bali and are all inclusive. This allows you to sit back relax and enjoy your adventure in style and comfort while we do the rest! The trip to G-Land departs from Bali, where you are collected from your hotel. Comfortable air conditioned buses then take you to Gilimanuk, a three hour drive. The ferry to Java takes about half an hour, and from there a one hour drive takes you through Banyuwangi to Choko Bay resort, just outside Grajagan village. At day break, we make for the river mouth to board a boat which takes twenty minutes to reach the camp. The tour packages are for 4 days (3 nights), 7 days (6 nights), 10 days (9 nights) or longer if requested. Some of the first Surfers to G-land, Mike and Bill Boyum, sure felt a connection from their first trips to G-land and immediately fell in love with the dream surfing experience! It was this mesmerizing attraction to the location that spawned their idea of a surf camp. Soon a vision to build a surfing nirvana began. Through hard work, good timing, and a friend named Bobby Radiasa, these two brothers made their surf dreams a reality. Bobby owns and operates the camp better than ever now. His operational vision focuses on keeping the original dream a reality. Now for more than 30 years, the G-land experience of great friends, great food, friendly service, and of course wave riding bliss continues.
